***Examiner's Statement of Reasons for Allowance***

1. Claims 1-3, and 6-10 are allowed.

2. The following is an examiner's statement of reasons for allowance:

The prior art made of record fails to anticipate or make obvious the claimed invention. Specifically, the prior art fails to teach, in combination with the remaining elements as recited in claims 1, 9, and 10:

The present invention is directed to a multiband microwave antenna.

Regarding claims 1, and similar claims 9, and 10, Maoz disclose a substrate having at least a first and a second metallization structure, wherein the first metallization structure has at least a metal area forming a resonator metal and a second metallization structure and the second metallization structure has at least a resonant printed conductor structure, wherein the metal area of the first metallization structure includes at least one slot structure that segments said metal area. However, Maoz, fails to specifically teach that slot structure including tuning slots (115,116), each positioned at a same end of said slot structure and extending in opposite directions from said slot structure.

Claims 2-3, 6-8 are allowed for depending on claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
